Staygreen	Stalk Lodging	Root Lodging	Test Weight	Description
Ratings: E = Excellent, G = Good, A = Average, F = Fair, P = Poor Herbicide Tolerance: Indicates increased susceptibility to certain herbicides and that extra caution should be used when making applications. OK = Not applicable, no increased sensitivity to any herbicides GR = Growth Regulators (e.g. 2,4-D, Clarity, Dicamba and Stinger) PI = Pigment Inhibitors (e.g. Balance, Callisto, Impact and Laudis) ALS = Acetolactate Synthase Inhibitor (e.g. Accent, Option and Steadfast) NA = Not Available				
E-G E-G E-G E-G Stands and has good plant health. Handles stress well for a 106 day hybrid.				
E-G E E-G E-G Good agronomics (stalks, roots, emergence, health). Goss's Wilt is weak.				
G E-G E G Very good stalks, roots, and good plant health. Stress/drought tolerance.				
E-G E-G E E-G Stands. Early vigor. Good stress tolerance and plant health, but average Goss's Wilt.				
G E-G E-G E Widely adapted good on rougher soils although not sand.				
A G E-G A Variable soil types. Good roots, stalks, health, and drought tolerance.				
E G G E-G Can handle stress. GLS fair, but corn-on-corn with fungicide. Excellent staygreen.				
E-G E E E Taller plant, but great standability. Variable soil types, can go north.				
E-G E-G G E Tall, upright leaves, very good stress tolerance, and good drought tolerance.				
G G G-A A Agrisure Duracade® 5222 E-Z Refuge® (ECB, rootworm, glyphosate, & LL) see M10-61 BGV EZ.				
G E-G E-G G Agrisure Duracade® 5222 E-Z Refuge® (ECB, rootworm, glyphosate, & LL) see M12-56 BGV EZ.				
G G G-A A Agrisure Duracade® 5222 E-Z Refuge® (ECB, rootworm, glyphosate, & LL) see M14-28 BRG.				
G G G-A A Consistent good yields. Good drought stress tolerance. Good ear flex.				
E-G E-G E-G E-G Stands and has good plant health. Handles stress well for a 106 day hybrid.				
G E-G E A Good standability. Goes south. Average to better soils. Responds to fungicide.				
F G E-G F Excellent yield potential, but not the healthiest. Average drought tolerance.				
E-G G-A E-G G Good Goss's Wilt, GLS, and overall health and staygreen. Good roots and decent stalks.				
G E-G E G Very good stalks, roots, and good plant health. Stress/drought tolerance.				
E-G E-G E E-G Stands. Early vigor. Good stress tolerance and plant health, but average Goss's Wilt.				
G E-G E-G E Widely adapted. Good on rougher soils although not sand.				
A G E-G A Variable soil types. Good roots, stalks, health, and drought tolerance.				
E-G E E G Dries slowly, but it stands and stays intact. Goes on all soil types. Average GLS.				
E-G E E E Taller plant, but great standability. Variable soil types, can go north.				
G E-G G E Full season. Drought and stress tolerance. Good stalks, roots, and health.				
G G G-A A Agrisure Viptera® 3220 E-Z Refuge® (Corn borer + Viptera® & no rootworm), use insecticide.				
G E-G E-G G Large-statured plant with great agronomics. Duracade® and conventional available.				
E-G E-G G G Maintain populations. Excellent drought tolerance. Good roots and stalks.				
G E-G G E Full season. Drought and stress tolerance. Good stalks, roots, and health.				
G-A G E-G G-A Good stalks and roots. High yield potential. Responds to fertility and fungicide.				
G E-G E G Very good stalks, roots, and good plant health. Stress/drought tolerance.				
E-G E-G G G Maintain populations. Excellent drought tolerance. Good roots and stalks.				
E-G E E E Taller plant, but great standability. Variable soil types, can go north.				

TECHNOLOGIES

SS RIB: SmartStax® RIB Complete® Corn Blend

D2 EZ: Agrisure Duracade® 5222 E-Z Refuge®

BRG: Agrisure® 3000GT

VT2P RIB: VT Double PRO® RIB Complete® Corn Blend

BGV EZ: Agrisure Viptera® 3220 E-Z Refuge®

RR: Roundup Ready® Corn 2
