¹ Some hybrids were not included in all the plots. Interpolated values were used to determine the 7 plot average and 53 hybrid avg. when these data points were missing. When interpreting the data, realize that the 7 plot averages using missing/interpolated data are not as "strong" as they would be for averages where there is no missing data.

² The "2 Year Average" for M10-01BGVEZ, Rx10-36VT2P RIB, and Rx10-36SS RIB, and Rx14-70SS RIB used 2018 data from Rx10-01BGV, Rx10.36VT2P, Rx10-36SS, and Rx14-70SS respectively.
